2270 RELIGION IN THE SCHOOL

The Board of Education recognizes that religious belief and disbelief are matters of personal conviction rather than governmental authority and the pupils of this district are protected by the First Amendment of the United States Constitution and by Article I, Paragraph 4 of the New Jersey State Constitution from the establishment of religion in the school. School officials will be neutral in their treatment of religion in the school district, showing neither favoritism toward nor hostility against religious expression. Accordingly, devotional exercises will be permitted in this district. The following activities will be permitted in the school district provided the activity is consistent with current United States Supreme Court decisions regarding the relationship between government and religion: prayer during instructional time; organized prayer groups and activities; religious expression and prayer in classroom assignments; pupil assemblies and extra-curricular events; prayer at graduation; baccalaureate ceremonies; devotional exercises; and other prayer and/or religion related activities. The school district will not permit an activity if the activity advances or inhibits any particular religious expression that is protected by the First Amendment of the United States Constitution.

The Board believes that an understanding of religions and the contributions that religion has made to the advancement of civilization is essential to the thorough education of young people and to their appreciation of a pluralistic society. To that end, the curriculum may be developed to include, as appropriate to the various ages and attainments of the pupils, instruction about the religions of the world.

The Board also acknowledges the degree to which a religious consciousness has enriched the arts, literature, music, and issues of morality. The instructional and resource materials approved for use in the district frequently contain religious references or concern moral issues that have traditionally been the focus of religious concern. That such materials may, therefore, be religious in nature shall not, by itself, bar their use by the district. The Board directs that teaching staff members employing such materials be neutral in their approach and avoid using them to advance or inhibit religion in any way.

The Board recognizes that religious traditions vary in their perceptions and doctrines regarding the natural world and its processes. The curriculum is chosen for its place in the thorough and efficient education of the children of this district, not for its conformity to religious principles. Pupils should receive unbiased instruction in the school so that they may privately accept or reject the knowledge so gained in accordance with their own religious tenets.

2330 HOMEWORK

The Board of Education acknowledges the educational validity of work assigned to pupils for completion outside the classroom as an adjunct to and extension of the instructional program of the school.

The Superintendent shall develop regulations for the assignment of homework according to these guidelines:

1. Homework should be a properly planned part of the curriculum, extending and reinforcing the learning experience of the school;
2. Homework should help children learn by providing practice in the mastery of skills, experience in data gathering and integration of knowledge, and an opportunity to remediate learning problems;
3. Homework should help develop the pupil's responsibility and provide an opportunity for the exercise of independent work and judgment;
4. The number, frequency, and degree of difficulty of homework assignments should be based on the ability and needs of the pupil and take into account other activities that make a legitimate claim on the pupil's time;
5. As a valid educational tool, homework should be clearly assigned and its product carefully evaluated and that evaluation should be reported to the pupil;
6. The school should recognize the role of parent(s) or legal guardian(s) by suggesting ways in which parent(s) or legal guardian(s) may assist the school in helping a child carry out assigned responsibilities;
7. Homework should always serve a valid learning purpose; it should never be used as a punitive measure.

REGULATION

BRIELLE BOARD OF EDUCATION

PROGRAM
R 2330/page 1 of 2
Homework

R 2330 HOMEWORK

Homework should be assigned nightly as determined by the curriculum and/or program. The activities required should take from thirty minutes to an hour. Any homework returned should be reviewed and redistributed to pupils within a reasonable amount of time.

In the event of non-health related absence, parent(s) or legal guardian(s) assume the responsibility for the educational needs of their children during the absence. The Board of Education does not encourage absences due to vacations since educational experiences in the classroom cannot be duplicates. However, it is also recognized that families take vacations at various times throughout the year. Therefore, children going on vacation will need to see the teacher upon returning to school to obtain the missed assignments. Teachers are not required to prepare special lessons, nor to do tutoring when pupils return from vacation. After the absence, the school staff will provide basic information regarding missed assignments. Pupils will also be given the opportunity to make up major tests that may be missed.

The Board of Education acknowledges the educational validity of homework as an adjunct to an extension of the instructional programs or provide the pupil with practice.

Therefore, the Superintendent shall develop rules for the assignment of homework according to these guidelines:

1. Homework should be a regularly planned part of the curriculum, in all grade levels, extending and reinforcing the learning experience of the school.
2. Homework should help pupils learn by providing practice in the mastery of skills, experience in data gathering, integration of knowledge, and an opportunity to remediate learning problems.
3. Emphasis should be placed upon the quality of homework and not the quantity. Homework shall not be used for punitive reasons.
4. Homework should help develop the pupil's responsibility by providing an opportunity for the exercise of independent work and judgment.
5. The number, frequency, and degree of difficulty of homework assignments should be based on the grade level, ability, and needs of the pupil.
6. As a valid educational tool, homework should be clearly assigned and its product carefully evaluated.

Field trips of significant educational value shall be encouraged, and pupil trips of significant recreational value shall be permitted.

For purposes of this policy, a field trip shall be defined as any journey by a group of pupils away from the school premises, under the supervision of a teacher, which is an integral part of an approved course of study and conducted for the purpose of affording a first-hand educational experience not available in the classroom.

The Superintendent shall approve all field trips and report to the Board monthly those trips which have been approved and those trips which have been taken.

When field trips and excursions are to be arranged, the following guidelines apply:

- A. All trips, and the arrangements for them, must have advance approval from the Superintendent.
- B. Costs must be ascertained.
- C. Each child who goes on a field trip or excursion must have written parental permission.
- D. Pupil safety must be of prime concern, and adequate supervision must be provided by staff aided by other adult chaperones if necessary.
- E. All trips must be well planned, properly timed, and related to regular learning activities, or to district goals and objectives.
- F. Each field trip should be evaluated by pupils, teachers, and the administration.

The Board shall make arrangements for transportation for field trips. Parent(s) or legal guardian(s) may be asked to bear expenses. No pupil is to be denied the right to participate because of inability to pay.

The Superintendent shall develop guidelines for planning trips suitable to the various grade levels, and regulations governing frequency, distance and expense.

A. Definition

A "field trip" is any journey by a group of pupils away from the school premises that has been duly approved in accordance with Policy No. 2340. A school sponsored trip taken by pupils as part of a co-curricular activity or a class trip is not a field trip and is governed instead by Regulation No. 5850.

B. Approval of Trips

1. A list of field trips considered appropriate for each grade level or subject area will be prepared cooperatively by teaching staff members and approved by the Superintendent. The approved list will be reviewed annually for additions, deletions, and revisions and will be distributed to teachers as a suggested guideline. In addition, the curriculum guide for a specific course of study may include suggested field trips.
2. To ensure the equitable allocation of budgeted field trip funds, each teacher shall submit a list of proposed field trips to the Superintendent at the beginning of the school year. The acceptance of the list does not constitute approval of any specific field trip on the list or of the number of field trips proposed by a teacher.
3. A teacher shall request approval of a specific field trip by submitting a written application to the Superintendent no less than thirty working days prior to the date of the anticipated trip. Field trip application forms are available in the office of the Superintendent.
4. The field trip application will include:
 - a. Proposed date of the trip (which should be checked in advance against the school calendar) and any alternate date(s);
 - b. The proposed destination and, if the destination is not generally known, its description and the reason it is selected by the teacher;
 - c. The relationship of the trip to curriculum goals and objectives;
 - d. The location of the destination and the route that will be taken to it;

 - h. The trip will occur during an exam period or immediately before the end of a marking period; or
 - i. The destination and trip activity are inappropriate choices for pupils of the age and maturity typical of the class.

2360 USE OF TECHNOLOGY

The Board of Education recognizes the use of technology in the educational process is an essential part of the schooling experience. Technology is to be viewed as a resource to enhance the learning process among other resources available to teachers and pupils. In addition, technology can be used to enhance the administration of the school and the district. In order to provide direction and meaning to the use of technology as an instructional resource, the Board encourages and supports staff use of technology as a component of the learning process.

For purposes of this policy "technology" includes, but is not limited to, the use of computers and computer peripherals, communications networks, access to databases and libraries of information and the integration of audio, video, multimedia devices and media for purposes of teaching and learning.

The Superintendent, in consultation with teaching and support staff, shall recommend to the Board the acquisition of appropriate technology to best implement the curricular, instructional, and administrative program of the school district. The Superintendent shall prepare a technology plan for the school district to encompass the following:

Curricular, Instructional and Administrative Need

The technology plan shall define the curricular, instructional and administrative need for technological equipment and media for the district.

In-service Education

The Board shall provide opportunities for school staff to participate in in-service programs on hardware or software programs to be used in the execution of educational and administrative tasks. In-service programs may be provided in or out of the district.

Standards, Codes and References

All technology installations shall conform to the industry standards and applicable federal, State and local statutes and codes.

Facilities Planning

In all facilities projects involving new constructions, additions, and renovations the Superintendent or designee shall ensure the plans include provisions for current and future technology needs in terms of the structural, electric/electronic, mechanical, acoustical and visual systems of the building(s). All educational specifications shall include features required for the use of instructional technology.

Computers

Computer Software Acquisition and Upgrading

The school district will only support the specified upgrades and training. Staff members shall not purchase software that has not been included on a list of specified software or has been approved by the Building Principal.

The Superintendent will recommend the purchase of upgrades to software as needed. An evaluation of upgrades shall be made by appropriate personnel and no upgrade shall be purchased without the express approval of the Technology Coordinator.

Site Licenses

In the case where more than one copy of a software program is required, the Technology Coordinator shall attempt to acquire or negotiate a site license with the software developers. In the event a site license is not possible, vendors shall be sought who will provide multiple copies at a discounted cost.

Software Copyright

All employees shall strictly adhere to the copyright laws of the United States. No software shall be copied and/or distributed except in accordance with these laws. All audio and/or video materials shall be used in accordance with the copyright laws of the United States. Teachers, pupils, or staff who create audio or video materials containing the voices or images of the individuals involved shall obtain proper releases from those individuals, their parent(s) or legal guardian(s) for instructional use within the school.

Informing Parents, Legal Guardians and Interested Parties

Upon request, the Building Principal shall make available to parent/legal guardians the computer hardware and software used in the district in order that a computer purchased privately for home use may be compatible with the computer and software the pupil uses in the school setting.

Technology Coordination

The Board shall appoint a Technology Coordinator to assure the technology needs of the district are met in the most efficient manner possible at the lowest costs available to meet specified needs.

Broadcast Rights and Copyrights

The Board specifically retains the Broadcast rights and copyrights to all materials created by employees of the Board as part of their responsibilities to the Board. Any financial remuneration for the use of such materials shall be retained by the Board.

2361 – ACCEPTABLE USE OF COMPUTER NETWORKS/ COMPUTERS AND RESOURCES

The Board of Education recognizes as new technologies shift the manner in which information is accessed, communicated, and transferred; these changes will alter the nature of teaching and learning. Access to technology will allow pupils to explore databases, libraries, Internet sites, and bulletin boards while exchanging information with individuals throughout the world. The Board supports access by pupils to these information sources but reserves the right to limit in-school use to materials appropriate for educational purposes. The Board directs the Superintendent to effect training of teaching staff members in skills appropriate to analyzing and evaluating such resources as to appropriateness for educational purposes.

The Board also recognizes technology allows pupils access to information sources that have not been pre-screened by educators using Board approved standards. The Board therefore adopts the following standards of conduct for the use of computer networks and declares unethical, unacceptable, or illegal behavior as just cause for taking disciplinary action, limiting or revoking network privileges, and/or instituting legal action.

The Board provides access to computer networks/computers for educational purposes only. The Board retains the right to restrict to terminate pupil access to computer networks/computers at any time, for any reason. School district personnel will monitor networks and online activity, to maintain the integrity of the networks, ensure their proper use, and ensure compliance with Federal and State laws that regulate Internet safety.

R 2361 ACCEPTABLE USE OF COMPUTER NETWORK/COMPUTERS AND RESOURCES

The school district provides computer equipment, computer services, and Internet access to its pupils and staff for educational purposes only. The purpose of providing technology resources is to improve learning and teaching through research, teacher training, collaboration, dissemination and the use of global communication resources. The "system administrators" referred to herein as employees of the school district who administer the school district computer network/computers and the system administrators reserve the right to monitor all activity on network/computer facilities/computers.

Because of the complex association between so many government agencies and computer networks/computers, the end user of these computer networks/computers must adhere to strict regulations. Regulations are provided here so that staff, community, and pupil users and the parent(s) or legal guardian(s) of pupils are aware of their responsibilities. The school district may modify these regulations at any time by publishing modified regulations on the network and elsewhere. The signatures of the pupil and his/her parent(s) or legal guardian(s) on the district-approved consent and waiver agreement are legally binding and indicate that the parties have read the terms and conditions carefully, understand their significance, and agree to abide by the rules established under Policy and Regulation No. 2361.

Pupils are responsible for good behavior on computer networks/computers just as they are in a classroom or a school hallway. Communications on the computer network/computers are often public in nature. Policies and Regulations governing behavior and communications apply. The school district's networks, Internet access and computers are provided for pupils to conduct research and communicate with others. Access to computer network services/computers is given to pupils who agree to act in a considerate and responsible manner. Parent permission is required. Access is a privilege--not a right. Access entails responsibility. Individual users of the district computer network/computers are responsible for their behavior and communications over the computer network/computers. It is presumed that users will comply with district standards and will honor the agreements they have signed. Beyond the clarification of such standards, the district is not responsible for the actions of individuals utilizing the computer network/computers who violate the policies and regulations of the Board.

Computer network/computer storage areas shall be treated in the same manner as other school storage facilities. Computer network/computer administrators may review files and communications to maintain system integrity and ensure that users are using the system responsibly. Users should not expect that files stored on district servers will always be private.

Acceptable Use of Computer Network/ Computers and Resources

Because the school district provides, through connection to the Internet, access to other computer systems around the world, pupils and their parent(s) or legal guardian(s) understand that the Board and system administrators have no control over content. While most of the content available on the Internet is innocuous and much of it a valuable educational resource, some objectionable material exists. The Board will provide pupil access to Internet resources only in supervised environments and has taken steps to lock out objectionable areas to the extent possible, but potential dangers remain. Pupils and their parent(s) or legal guardian(s) are advised that some systems may contain defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially offensive, or otherwise illegal material. The Board and the system administrators do not condone the use of such materials and do not permit usage of such materials in the school environment. Parent(s) or legal guardian(s) having accounts on the system should be aware of the existence of such materials and monitor home usage of the school district computer network. Pupils knowingly bringing such materials into the school environment will be disciplined in accordance with Board policies and regulations and such activities may result in termination of such pupil's accounts on the computer network and their independent use of computers.

On-line Conduct

Any action by a pupil or other user of the school district's computer network/computers that is determined by a system administrator to constitute an inappropriate use of computer network/computers resources or to improperly restrict or inhibit other members from using and enjoying those resources is strictly prohibited and may result in limitation on or termination of an offending member's account and other action in compliance with the Board policy and regulation. The user specifically agrees not to submit, publish, or display any defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially offensive, or otherwise illegal material; nor shall a user encourage the use, sale, or distribution of controlled substances. Transmission of material, information or software in violation of any local, state or federal law is also prohibited and is a breach of the Consent and Waiver Agreement.

Users and their parent(s) or legal guardian(s) specifically agree to indemnify the Brielle School District and the system administrators for any losses, costs, or damages, including reasonable attorney's fees incurred by the Board relating to, or arising out of any breach of this section by the user.

Software Libraries on the Network

Software libraries on the network are provided to pupils as an educational resource. No pupil may install, upload, or download software without the expressed consent of the system administrator. Any software having the purpose of damaging other members' accounts on the school district computer network/computers (e.g., computer viruses) is specifically prohibited. The system administrators, at their sole discretion, reserve the rights to refuse posting of files and to remove files. The system administrators, at their sole discretion, further reserve the right to immediately limit usage or terminate the account or take other action consistent with the Board's policies and regulations of a member who misuses the software libraries.

Copyrighted Material

Copyrighted material must not be placed on any system connected to the network/computers without the author's specific written permission. Only the owner(s) or persons they specifically authorize may upload copyrighted material to the system. Members may download copyrighted material for their own use in accordance with Policy and Regulation Nos. 2531, Copying Copyrighted Materials. Any member may also noncommercially redistribute a copyrighted program with the expressed written permission of the owner or authorized person. Permission must be specified in the document, on the system, or must be obtained directly from the author.

Public Posting Areas (Message Boards/Usenet Groups)

Usenet messages are posted from systems connected to the Internet around the world and the school district system administrators have no control of the content of messages posted from these other systems. To best utilize system resources, the system administrators will determine which Usenet groups are most applicable to the educational needs of the school district and will carry these groups on the school district computer network. Electronic Mail

Electronic mail ("E-mail") is an electronic message sent by or to a member in correspondence with another person having Internet mail access. All messages sent and received on the school district computer network must have an educational purpose and are subject to review. Messages received by the system are retained on the system until deleted by the recipient or for a maximum of fifteen days. A canceled account will not retain its E-mail. Members are expected to remove old messages within fifteen days or the system administrators may remove such messages. The system administrators may inspect the contents of E-mail sent by one member to an addressee, or disclose such contents to other than the sender or a recipient when required to do so by the Board policy, regulation or other laws and regulations of the State and Federal governments. The Board reserves the right to cooperate fully with local, state, or federal officials in any investigation concerning or relating to any E-mail transmitted on the school district computer networks or computers.

Disk Usage

The system administrators reserve the right to set quotas for disk usage on the system. A member who exceeds his/her quota of disk space will be advised to delete files to return to compliance with predetermined quotas. A member who remains in noncompliance of disk space quotas after seven school days of notification will have their files removed by a system administrator.

Security

Security on any computer system is a high priority, especially when the system involves many users. If a member feels that he/she can identify a security problem on the computer network, the member must notify a system administrator. The member should not inform individuals other than the system administrators or other designated members of the school district staff of a security problem. Professional staff may allow individuals who are not members to access the system through the staff personal account as long as the staff person does not disclose the password of the account to the individuals and understands that the staff person assumes responsibility for the actions of individuals using his/her account. Members may not otherwise allow others to use their account and password. Passwords to the system should not be easily guessable by others, nor should they be words, which could be found in a dictionary. Attempts to log in to the system using either another member's account or as a system administrator will result in termination of the account. Members should immediately notify a system administrator if a password is lost or stolen, or if they have reason to believe that someone has obtained unauthorized access to their account. Any member identified as a security risk will have limitations placed on usage of the computer network/computers or may be terminated as a user and be subject to other disciplinary action.

For the purpose of this Policy, "technology" means hardware or software.

For the purpose of this Policy, "privately-owned" means technology hardware and software that is purchased, owned, and maintained by the pupil at no expense to the school or school district.

Any use of privately-owned technology by a pupil shall be in strict accordance with the teaching staff member's specific approval(s) and Board policies and regulations. 2414 PROGRAMS FOR PUPILS AT RISK

The Board of Education recognizes that certain conditions place children at risk of not acquiring the knowledge, skills, behaviors, and attitudes necessary for school success, school completion, and successful functioning as an adult in society.

A “pupil at risk” means a pupil who is in danger of failure to achieve the New Jersey Core Curriculum Content Standards and the high school graduation requirements or dropping out of school because of specific cognitive, affective, economic, social, and/or health needs. The conditions that may place a pupil at risk include the pupil's failure to acquire the essential skills needed to stay on grade level or the pupil's performance below minimum levels of proficiency; history of adjustment or behavioral problems; placement on long-term suspension for violation of school rules; history of poor school attendance; being limited in English language proficiency; being disruptive or disaffected; pregnancy or parenthood; failure to qualify for promotion or graduation; condition of poverty as defined by his/her eligibility for free meals or free milk and/or exhibiting other characteristics identified by the Board.

Programs and services for pupils at risk shall meet the goals of:

1. Enhancing the health, self-esteem, and acquisition of the life skills necessary for age-appropriate development and productive functioning in the school setting and society;
2. Identifying and assisting pupils who are not meeting standards for behavior and achievement in areas such as attendance, conduct, and mastery of the curriculum, as well as performing below state minimum levels of proficiency; and
3. Improving the school climate so that pupils experience school as a safe, supportive, and disciplined place where academic and interpersonal growth and learning can take place.

Programs and services for pupils at risk may be offered during the regular school day, beyond the regular school day, or during the summer. Any such programs and services that do not require the services of a teaching staff member or cannot be reasonably accommodated in the school setting may be delivered by qualified persons who are not necessarily certified but are supervised by appropriately certified teaching staff members.

The Board shall provide staff training necessary to implement the programs and services for pupils at risk.

2415 NO CHILD LEFT BEHIND PROGRAMS

The No Child Left Behind Act (NCLB) of 2001 is a reauthorization of the Elementary and Secondary Education Act (ESEA)/Improving America's Schools Act (IASA) 1994, providing funds to help all New Jersey's school children achieve, at a minimum, proficiency in the State standards. NCLB embodies four key principles or pillars of education reform: accountability, flexibility, choice, and methodology. The Board of Education elects to augment the instructional program of pupils by projects supported by federal funds allocated under NCLB and the district will comply with the requirements of all the programs authorized by NCLB.

The district may be eligible for several grant programs funded through NCLB, including, but not limited to, Title I through Title VI. Many of the Titles of NCLB have several parts and subparts that provide a funding source for specific purposes.

Application Procedure

The district will submit an annual No Child Left Behind Consolidated Formula Subgrant Application to the New Jersey Department of Education (NJDOE). The school district's application shall include all information required by the NJDOE and NCLB for the district to be considered for funding under NCLB.

Covered Programs

The intent of NCLB is that all children will meet State academic achievement standards to reach their potential through improved programs. The NCLB Consolidated Formula Subgrant includes the following programs:

1. Title I, Part A provides the programs and resources for disadvantaged pupils to meet this intent. It requires the State and the district to close the achievement gap by placing a highly qualified teacher in every classroom, improving the qualifications of paraprofessionals who work with disadvantaged pupils, and using instructional practices that have proven to be effective.
2. Title I, Part D serves neglected and delinquent youth in institutions, community day programs, and correctional facilities to assure they also attain high academic levels of performance.

3. Title II, Part A provides the resources for improving teacher and Principal quality and increasing the number of highly qualified teachers and Principals in classrooms and schools, thereby raising pupil achievement in the academic subjects. It focuses on preparing, training, and recruiting high-quality teachers and Principals and requires the State to develop plans with annual measurable objectives that will ensure all teachers teaching in core academic subjects are highly qualified by the end of the 2005-2006 school year.
4. Title II, Part D facilitates comprehensive and integrated educational technology strategies that target the specific needs of individual schools. It improves pupil academic achievement through the use of technology in elementary and secondary schools, while addressing the digital divide such that every pupil is technologically literate by the end of eighth grade. Effective integration of technology resources and systems with teacher training and curriculum development are encouraged in order to identify and showcase best practices in educational technology.
5. Title III, Part A focuses on the teaching of English to limited English proficient (LEP) children, including immigrant children and youth.
6. Title IV, Part A provides resources for fostering a safe and drug-free learning environment that supports academic achievement.
7. Title V, Part A provides a flexible source of funding to help districts in the development and implementation of various innovative reform initiatives.
8. Title VI, Part B addresses the unique needs of rural school districts.
9. Title IX covers the general provisions applicable to some/all of the programs.

Throughout NCLB, the use of solid research to improve teaching and learning as well as pupil behavior is required and promoted, and parent(s)/legal guardian(s) are provided with information and options to improve the educational opportunities provided for their children. The emphasis on scientifically based methodology encourages the use of teaching techniques and practices that are founded on research and proven to produce positive results.

Title I

The largest federal program supporting elementary and secondary education is Title I. NCLB strengthens Title I requirements for the State's assessments, accountability system, and support for school improvement. The law also establishes minimum qualifications for teachers and paraprofessionals in Title I programs.

The school district must use the best available measure for identifying children from low-income families to identify eligible school attendance areas, determine the ranking of each area and to determine allocations as identified in the Title I guidelines and regulations.

The school district will offer Title I services to eligible children enrolled in private elementary and secondary schools. The services and benefits will be equitable in comparison to services and benefits for participating public school children.

The school district will provide the New Jersey Department of Education assurances it will provide the maximum coordination between the Title I program, the regular school program, and services provided by other programs for specialized populations. The Title I program will consider the special needs of homeless children, migrant children, children with disabilities and limited English proficient (LEP) children. Title I funds will be reserved so that migrant children who are otherwise eligible to receive Title I services, even if they arrive during the school year, are served.

Type of Title I Program

The school district will offer a Target Assistance Title I program.

Target Assistance Program

Schools that are not eligible for (or do not choose to operate) school-wide Title I programs must use Title I funds to provide targeted services to low-achieving pupils. A Target Assistance program must be established in accordance with the Title I guidelines and regulations and the New Jersey Department of Education.

Academic Standards, Academic Assessments and Accountability

The district will comply with the requirements as outlined in Policy 2415.01 - Academic Standards, Academic Assessments and Accountability in accordance with the NJDOE and NCLB.

The district will comply with the requirements as outlined in Policy 2415.03 – Highly Qualified Teachers in accordance with the NJDOE and NCLB. In addition, the district will ensure all paraprofessionals meet the requirements as required by NCLB and as outlined in Policy 4125 – Employment of Support Staff Members.

Parental Involvement

The district will comply with the requirements as outlined in Policy 2415.04 – Parental Involvement in accordance with the NJDOE and NCLB.

Pupil Surveys, Analysis and/or Evaluations

Unsafe School Choice Option

In the event there is a school in the district designated as Persistently Dangerous or in accordance with the Victims of Violent Criminal Offenses as outlined in NCLB, the district will comply with the requirements of Policy 2415.06 – Unsafe School Choice Option in accordance with the NJDOE and NCLB.

Property

Property acquired through Title I funds for use in public or private schools will be acquired in accordance with the Public School Contracts Law, will be held in title by the Board of Education, and will not be used for other purposes so long as it is required in the Title I program. Post-Award Requirements

The school district will maintain all project records for five years following the completion of the activity for which the funds were used. The school district will prepare and submit all reports as required by the State Department of Education in a timely manner.

Supplement, Not Supplant

State Waiver from Certain Provisions of No Child Left Behind (NCLB)

The State of New Jersey may receive a waiver(s) from certain provisions of NCLB from the United States Department of Education. A waiver(s) may affect the applicability of the school district's NCLB policies and/or regulations. In the event a waiver(s) affects the applicability of Board of Education NCLB policies and/or regulations, the waiver provisions shall supersede current Board policies and/or regulations and the school district shall comply with the requirements as outlined by the New Jersey Department of Education in accordance with the waiver(s) application and approval(s) from the United States Department of Education.

Evaluation

The Superintendent will evaluate the NCLB programs as required by the United States and the New Jersey Departments of Education.

- B. Ranking Order - The school district may rank its attendance areas by grade-span grouping or for the entire school district. If funds are insufficient to serve all eligible school attendance areas, the school district will:
1. Annually rank, without regard to grade-span, eligible school attendance areas in which the concentration of children from low income families exceeds 75% from highest to lowest according to the percentage of children from low income families; and

 2. Serve such eligible school attendance areas in rank order either within each grade-span grouping or within the school district as a whole.
- D. Measures of Identification - The school district will use the best available measure for identifying children from low-income families to identify eligible school attendance areas, determine the ranking of each area and to determine allocations. 2. Use Title I funds in a school that is not in an eligible school attendance area, if the percentage of children from low-income families enrolled in the school is equal to or greater than the percentage of such children in a participating school attendance area of such agency;
 3. Elect not to serve an eligible school attendance area or eligible school that has a higher percentage of children from low-income families if:
 - a. The school meets the comparability requirements;
 - b. The school is receiving supplemental funds from other state or local sources; and
 - c. The funds expended from other sources are equal to or exceed the amount that would be provided under Title I.
 4. SPECIAL RULE: If a Local Educational Agency (LEA) chooses not to serve an eligible school attendance area, the number of children attending private elementary and secondary schools who are to receive services, and the assistance such children are to receive under this part, shall be determined without regard to whether the public school attendance area in which such children reside receives Title I funds.
- G. Allocations: In general:
1. The school district will allocate Title I funds to eligible school attendance areas or eligible schools, in rank order, on the basis of the total number of children from low-income families in each area or school.
 2. The per-pupil amount of funds allocated to each school attendance area or school shall be at least 125% of the per pupil amount of funds the school district received for that year under the poverty criteria described by the school district's plan. This will not apply if the school district only serves schools in which the percentage of such children is 35% or greater.
 3. The school district may reduce the amount of funds allocated for a school attendance area or school by the amount of any supplemental state and local funds expended in that school attendance area or school for programs that meet the requirements for school-wide or target assistance schools.

Title I Program Guidelines, New Jersey Department of Education

Issued: 5 January 2011

2415.01 ACADEMIC STANDARDS, ACADEMIC ASSESSMENTS,
AND ACCOUNTABILITY

The No Child Left Behind Act of 2001 (NCLB), a reauthorization of the Elementary and Secondary Education Act (ESEA), requires New Jersey to implement a single accountability system to include challenging academic content and academic achievement standards. The accountability requirements under NCLB were built on the foundation of the former Improving America's Schools Act (IASA).

To meet the Federal requirements, New Jersey has adopted the New Jersey Single Accountability System. State assessments in language arts literacy and mathematics are based on the New Jersey Core Curriculum Content Standards. All pupils enrolled in New Jersey public schools, plus all pupil subgroups, must meet the proficiency benchmarks to ensure the goal of 100% proficiency. Pupils must score either "proficient" or "advanced proficient" on the assessments to be counted toward meeting the benchmarks.

Schools are evaluated using adequate yearly progress (AYP) indicators. Pupil achievement is determined by grade span (Elementary School – grades three through five, Middle School – grades six through eight, and High School – grades nine through twelve) and in each content area. There are indicators that must be met (including participation and proficiency rates) plus a secondary indicator. A safe harbor calculation is applied to measure significant progress if the benchmark is missed. When a school does not meet AYP for two consecutive years in the same content area, it is designated as a "school in need of improvement."

AYP shall be calculated for all New Jersey schools under the provisions of NCLB. Schools that do not meet AYP as defined under NCLB are placed into one of the following categories. Title I schools in need of improvement must implement the sanctions for each category.

Year 1 – Early Warning: A school that does not make AYP for one year is placed into "early warning" status.

Year 2 – In Need of Improvement/School Choice: A school that does not make AYP for two consecutive years in the same content area is designated as a "school in need of improvement." Parents/legal guardians shall be promptly notified if their child's school has been designated as in need of improvement. For Title I schools certain interventions apply, including intradistrict school choice (or supplemental educational services if choice is not available) and development of a school improvement plan (Title I Unified

Plan). The district must offer the school technical assistance to address the areas that caused the school to be in need of improvement. Parents/legal guardians shall be notified of their right to request intradistrict public school choice and parents/legal guardians of eligible pupils shall be notified of the availability of supplemental educational services, if choice is not available, including the provider list Web address.

Year 3 – In Need of Improvement/Supplemental Educational Services (SES): A school that does not make AYP for three consecutive years in the same content area shall continue to be identified as a “school in need of improvement.” The Title I school must continue to offer intradistrict school choice and must also offer SES to eligible pupils. Technical assistance must continue to be offered by the district, parents must receive notification of the school’s status, and the school improvement plan (Title I Unified Plan) is updated annually. Parents/legal guardians of eligible pupils shall be notified of the availability of supplemental educational services, if choice is not available, including the provider list Web address.

The New Jersey Department of Education (NJDOE) offers school support by engaging a team of experienced professionals to conduct an extensive school review called Collaborative Assessment and Planning for Achievement (CAPA). The CAPA team interviews stakeholders and staff, reviews school and district documents, and conducts on-site observations to develop a report that contains recommendations for school improvement, which then becomes part of the Title I Unified Plan.

Year 4 – Corrective Action: A school that does not make AYP for four consecutive years in the same content area is identified as a school in corrective action. The Title I school must continue to offer intradistrict school choice and SES, notify parents of the school’s status, revise its school improvement plan (Title I Unified Plan), and receive technical assistance from the district and the NJDOE.

The district must take at least one of the following corrective actions:

1. Provide, for all relevant staff, appropriate, scientifically research-based professional development that is likely to improve academic achievement of low-performing pupils.
2. Institute a new curriculum grounded in scientifically-based research and provide appropriate professional development to support its implementation.

3. Extend the length of the school year or school day.
4. Replace the school staff who are deemed relevant to the school not making adequate progress.
5. Significantly decrease management authority at the school.
6. Restructure the internal organization of the school.
7. Appoint one or more outside experts to advise the school how to revise and strengthen the improvement plan it created while in school improvement status and how to address the specific issues underlying the school's continued inability to make AYP.

Year 5 – Planning for Restructuring: A Title I school that does not make AYP for five consecutive years in the same content area must plan to restructure. The restructuring plan is implemented at the beginning of the following school year if the school continues to miss AYP benchmarks and moves to Year 6. During the planning year, the Title I school must continue to offer intradistrict school choice and SES, notify parents of the school's status and invite parent input during the restructuring process, and receive technical assistance from the district and the NJDOE. The technical assistance design for a school being restructured emphasizes the following:

1. The importance of improving instruction by using strategies grounded in scientifically-based research so that all children in the school achieve proficiency in the core academic subjects of language arts and mathematics.
2. The importance of analyzing and applying data in decision-making.

The restructuring plan must include one of the following alternative governance systems for the school as outlined by NCLB regulations and consistent with New Jersey practice and statutes:

1. Implement any major restructuring of the school's governance that is consistent with the principles of restructuring as set forth in the No Child Left Behind Act.
2. Re-open the school as a public charter school as defined by State statute and regulation (N.J.S.A. 18A:36A-1 et seq. and N.J.A.C. 6A).

3. Replace all or most of the school staff, which may include the Principal, who are relevant to the school's inability to make adequate progress (consistent with existing contractual provisions and applicable statutory protections in Title 18A).

Year 6 – Restructuring-1: A Title I school that does not make AYP for six consecutive years in the same content area must implement the approved restructuring plan. The Title I school must continue to offer intradistrict school choice and SES, notify parents of the school's status and invite parent input and support during the implementation process, and receive technical assistance from the district and the NJDOE. Technical assistance is critical to help school staff remain focused on increasing pupil achievement while the school is adjusting to potentially radical changes in its administration and governance structures. A CAPA visit will occur at the school to determine the fidelity of implementation of the restructuring plans and to review the governance structure of the school.

Year 7 (and over) – Restructuring-2 (and over): If the school has not made AYP for seven or more consecutive years, the NJDOE will meet with school and district administrators to continually review implementation of the restructuring plan/Title I Unified Plan. Benchmark meetings with NJDOE staff, the school, and the district will occur twice a year to assess and support implementation of the school improvement plan.

Removal from Early Warning/Improvement Status: To be removed from early warning or improvement status, the school must make AYP for two consecutive years in the content area that caused the school to go into status, providing the school makes AYP in the other content areas. The first year of making AYP is a "hold year" and the school does not progress to the next sanction level, but must continue to implement current interventions. If the school does not make AYP the year following "hold," the school goes back into improvement status at the level prior to the hold year.

Comparability of Materials and Supplies

To be in compliance with the requirements of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 2701 et seq.) as amended by the No Child Left Behind Act of 2001, §1120A(c), the Brielle Board of Education directs the Superintendent to distribute curriculum materials and instructional supplies to the schools in such a way that the equivalence of such material is ensured among schools.

No Child Left Behind Act of 2001, §1120A

Adopted: 5 January 2011

2415.03 HIGHLY QUALIFIED TEACHERS

The No Child Left Behind Act (NCLB) requires all teachers be or become highly qualified in the core academic content area(s) they teach in accordance with the United States Department of Education and the New Jersey Department of Education highly qualified teacher requirements.

Teachers who have achieved highly qualified status retain highly qualified status permanently for the teaching assignment designated on the approved highly qualified teacher forms. No teacher providing direct instruction in core content areas is grandfathered or exempt from this process.

The district shall maintain the appropriate highly qualified documentation for all teachers who provide direct instruction in core content areas. When a teacher changes teaching assignments, which requires different content expertise, additional highly qualified teacher forms must be completed and kept on file within the district. Highly qualified teacher documentation should be completed for all new teachers and for those with new teaching assignments at the beginning of each school year.

When a teacher obtains employment in a new school district, the new district must contact the previous place of employment to have the teacher's official highly qualified teacher forms sent to the new district. A teacher hired from another State must hold New Jersey certification and must meet New Jersey's highly qualified teacher requirements. Out-of-State teachers may provide documentation to support their highly qualified teacher status from the previous State in which they taught.

All Title I schools must send out a Right-to-Know letter in the beginning of every school year informing parent(s) or legal guardian(s) that they have the right to know the qualifications of their child's teacher. The letter should be sent by all Title I and non-Title I districts. In addition, in all Title I schools, the parent(s) or legal guardian(s) of pupils whose teacher is not yet highly qualified must be notified. Copies of these letters must be kept on file in the school.

2415.04 TITLE I – DISTRICT-WIDE PARENTAL INVOLVEMENT

GENERAL EXPECTATIONS

The school district will put into operation programs, activities, and procedures for the involvement of parents in all of its schools with Title I, Part A programs, consistent with Section 1118 of the Elementary and Secondary Education Act (ESEA). Those programs, activities, and procedures will be planned and operated with meaningful consultation with parents of participating children.

Consistent with Section 1118, the school district will work with its schools to ensure that the required school-level parental involvement policies meet the requirements of Section 1118(b) of the ESEA, and each include, as a component, a school-parent compact consistent with Section 1118(d) of the ESEA.

The school district will incorporate this District-Wide Parental Involvement Policy into its school district's plan developed under Section 1112 of the ESEA.

In carrying out the Title I, Part A parental involvement requirements, to the extent practicable, the school district and its schools will provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information and school reports required under Section 1111 of the ESEA in an understandable and uniform format, including alternative formats upon request, and to the extent practicable, in a language parents understand.

If the school district's plan for Title I, Part A, developed under Section 1112 of the ESEA, is not satisfactory to the parents of participating children, the school district will submit any parent comments with the plan when the school district submits the plan to the New Jersey Department of Education.

In the event the school district is required to reserve and spend at least one percent of the district's Title I, Part A allocation, the school district will involve the parents of children served in Title I, Part A schools in decisions about how these funds will be spent and will ensure that not less than ninety-five percent of the one percent reserved goes directly to the schools.

The school district will be governed by the following statutory definition of parental involvement, and expects Title I schools in the district will carry out programs, activities, and procedures in accordance with this definition:

No Child Left Behind Act of 2001, Title X, Part F, §1061

Adopted: 5 January 2011

2415.06 UNSAFE SCHOOL CHOICE OPTION

The Unsafe School Choice Option (USCO) provision of The No Child Left Behind Act of 2001 (NCLB) §9532 contains two provisions that apply to school districts that receive funds under NCLB: Provision I - Persistently Dangerous Schools and Provision II - Victims of Violent Criminal Offenses.

Effective the beginning of each school year, school districts receiving NCLB funds must be prepared to complete the transfer of pupils who choose to exercise Provision I and Provision II of NCLB and this Unsafe School Choice Option Policy. Compliance with the Policy is a condition of receiving funds under any and all titles under NCLB. The Superintendent is required to certify compliance with this USCO Policy to the New Jersey Department of Education (NJDOE) in the application for NCLB funds.

USCO Policy Provision I - Persistently Dangerous Schools (PDS)

1. Criteria for Determining Persistently Dangerous Schools.

A persistently dangerous school is a public elementary or secondary school building (except for Regional Day Schools, Educational Services Commissions and Special Services School Districts) that meets the objective criteria determined by the New Jersey Department of Education (NJDOE) for three consecutive years and is part of a school district that receives funds under NCLB. The NJDOE will use the most current available data from the Electronic Violence and Vandalism Reporting System (EVVRS) to identify persistently dangerous schools on or before July 31 of each year, in compliance with federal regulations (68 FR 16789).

2. Procedures and Guidelines for Schools Determined to be Persistently Dangerous.

Once the district receives notification a school is identified as persistently dangerous, the district must inform all parents of enrolled pupils in the school of the designation within fifteen calendar days of the notice and offer them the option for their children to transfer to a safe public school within the district by the beginning of the respective school year. The district must complete all transfers by the beginning of the school year following the July notification.

Pupils are not required to accept the transfer option, but they must be afforded the opportunity to do so. Parental notice regarding the status of the school and the offer to transfer pupils should be made simultaneously. Parents of enrolled pupils must be notified of the persistently dangerous designation whether or not there is another school within the district for the transferring pupils.

To the extent possible, the district will allow transferring pupils to transfer to schools that are making adequate yearly progress in accordance with NCLB and have not been identified as being in need of school improvement, corrective action or restructuring. The district will take into account the needs and preferences of the affected pupils and parents.

3. Corrective Action Plan for a School Identified as Persistently Dangerous.

If a school in the district is identified as persistently dangerous, the district will submit to the NJDOE, on or before August 25, documentation of compliance with the parent notification requirement and actions taken to complete the transfer arrangements for all pupils exercising the option by the first day of the school year. The district will also develop and submit for approval a corrective action plan to the NJDOE on or before September 30 of the same year, which will apply to the respective school year. The corrective action plan, which must be completed in the format provided by the NJDOE, will describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide schools with guidance for their corrective action plans, as well as monitor the school district's timely completion of the approved plans.

In the spring of each following year, the NJDOE will re-evaluate the status of a school identified as persistently dangerous. The NJDOE will review the school's progress towards completing their corrective action plan and compare the current year's incidents of violence, as reported on the EVVRS, to the criteria for determining persistently dangerous schools (PDS). A school identified as maintaining the persistently dangerous designation will be notified by the NJDOE on or before July 31 of the respective year and will be required to submit for approval a revised corrective action plan by August 25 of that year, which will apply to the respective school year. The school district must inform all parents of enrolled pupils in the school of the designation within fifteen calendar days of the notice and offer them the option for their children to transfer to a safe public school by the beginning of the respective school year.

A school no longer designated persistently dangerous will be notified on or before July 31 of the respective year. The persistently dangerous designation will be removed after one or more years contingent upon successful fulfillment of the criteria for removal, as determined by and in accordance with guidance provided by the NJDOE.

4. Procedures and Guidelines for Early Warning of Schools.

Effective in 2004, if a school meets the criteria set forth in this Policy for two consecutive years, the district will be notified of their pattern of offenses on or before August 15 of each year. If notified, the district will develop and submit to the NJDOE for approval a corrective action plan on or before September 30 of the same year, which will apply to the respective school year. The corrective action plan, which must be completed in the format provided by the NJDOE, will describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide the school with guidance for their corrective action plan, as well as monitor the school's timely completion of the approved plan. This school shall become a top priority for intensified district support for research-based programs and technical assistance. A school receiving an "early warning" notice is not required to provide the transfer option to pupils.

In the spring of each following year, the NJDOE will reevaluate the school's progress towards completing their corrective action plan and compare the current year's incidents of violence, as reported on the EVVRS, to the criteria for determining persistently dangerous schools. Schools will be notified of their status on or before July 31 of the respective year.

A school that has successfully completed their corrective action plan and reported violent incidents that no longer meet the Criteria for Determining Persistently Dangerous Schools for one school year (the year in which the corrective action plan was in effect) will no longer be required to submit a Corrective Action Plan.

A school that does not successfully complete their Corrective Action Plan and that meets the criteria set forth in this Policy for a third consecutive year will be designated as persistently dangerous and will be required to submit for approval a revised corrective action plan on or before September 30 of that year, which will apply to the respective school year. The district will also provide the transfer option to pupils in the school designated as persistently dangerous.

5. Schools Not Receiving NCLB Funds, but Meeting the Criteria for PDS.

School buildings and districts that do not receive federal funds under NCLB, but meet any one of the criteria for persistently dangerous schools, will be contacted by the NJDOE and be required to develop and submit for approval a Corrective Action Plan on or before September 30 of the respective year. The Corrective Action Plan must be completed in the format provided by the NJDOE and describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide the school guidance for their corrective action plan, as well as monitor the school's timely completion of the approved plan.

USCO Policy Provision II - Victims of Violent Criminal Offenses

The Victim of Violent Criminal Offenses provision of NCLB requires a pupil who becomes a victim of a violent criminal offense, as determined by State law, while in or on the grounds of a public elementary or secondary school that the pupil attends, be allowed to attend a safe public elementary or secondary school within the district, including a public charter school.

The Superintendent will consult with the Board attorney and communicate with designated local and/or county law enforcement authorities, per the provisions of the Uniform State Memorandum of Agreement Between Education and Law Enforcement Officials and N.J.A.C. 6A:16-6.2(b)12, on questions and issues that arise in the implementation of the individual victims of violent criminal offenses section of this Policy.

1. Criteria for Determining Victims of Violent Criminal Offenses

The following criteria must be used to determine when an enrolled pupil has become a victim of a violent criminal offense while in or on the grounds of a public elementary or secondary school that the pupil attends. These criteria only apply to a pupil who has become a victim of one or more of the violent criminal offenses enumerated below:

A pupil is considered a victim of a violent criminal offense when:

- a. A referral has been made to law enforcement officials for suspicion that one of the violent criminal offenses enumerated below has occurred; and

- b. One or more of the following applies:
- (1) Law enforcement officials have filed formal charges against the perpetrator(s) for commission of the violent crime; or
 - (2) The perpetrator(s) of the violent crime has been disciplined in accordance with school policy; or
 - (3) The perpetrator(s) of the violent crime either has not been identified or is not an enrolled pupil(s), but it is clear that the pupil (victim) has become a victim of a violent criminal offense based on objective indicators such as physical evidence, eyewitness testimony, and/or circumstantial evidence; or
 - (4) The pre-existence of a restraining order against the perpetrator(s) of the violent crime.

2. Procedures and Guidelines

Effective the first day of each school year beginning in 2003, the district must be prepared to begin the transfer of any pupil who chooses to exercise the unsafe school choice option provision. The district must offer, within ten calendar days, an opportunity to transfer to a safe public school within the district to any pupil who has become a victim of a violent criminal offense while in or on the grounds of a public school that the pupil attends. While the pupil must be offered the opportunity to transfer, the pupil may elect to remain at the school.

To the extent possible, the district will allow any transferring pupil to transfer to a school that is making adequate yearly progress in accordance with NCLB and has not been identified as being in need of school improvement, corrective action or restructuring. The district will take into account the needs and preferences of the affected pupil and his or her parent(s). Transfers must occur within thirty days of the determination that the pupil was a victim of a violent criminal offense.

3. Violent Criminal Offenses

The violent criminal offenses under New Jersey statutes that apply to the individual victim provision are identified and explained below. The offenses apply to completed offenses, as well as threats and attempts to commit the offenses. The offenses and attempts to commit the offenses apply only when they occur in or on the grounds of a school that the pupil attends. The offenses apply whether they occur wholly or in part in or on the grounds of a school that the pupil attends.

The offenses apply only to acts or attempts that are directed at a person (victim) or a group of specified individuals (victims), rather than acts that indiscriminately affect the entire school population or non-specified individuals or groups. For the purposes of this Unsafe School Choice Option Policy, the term "victim" shall not include a pupil who purposely, knowingly or recklessly provokes the conduct constituting the criminal incident against him or her.

4. Applicable Violent Criminal Offenses

Below is a description of each applicable violent criminal offense that is based upon New Jersey statutes and references to statutory citations that provide complete explanations of each designated offense. The descriptions provided below are not intended to be a complete explanation of each offense or a substitute for the actual provisions of the authorizing statutes. Instead, the descriptions are provided as an aid in facilitating understanding of the general intent and practical applications of the violent criminal offenses that pertain to this Unsafe School Choice Option Policy.

8. Robbery [N.J.S.A. 2C:15-1] - A person is a victim of a robbery when the actor, in the course of committing a theft, inflicts bodily injury; or uses force upon the victim; or threatens the victim with or purposely puts the victim in fear of immediate bodily injury.
9. Kidnapping [N.J.S.A. 2C:13-1] - A person is a victim of a kidnapping when the actor unlawfully removes the victim from the school or school grounds; or the actor unlawfully confines the victim with the purpose of holding the victim for ransom or reward as a shield or hostage; or the actor unlawfully removes the victim from the school or school grounds or a substantial distance from where he or she is found in school or on school grounds; or if the actor unlawfully confines a pupil for a substantial period of time to facilitate commission of a crime or flight thereafter, or to inflict bodily injury on or terrorize the victim.
10. Arson [N.J.S.A. 2C:17-1] - A person is a victim of arson when the actor starts a fire or causes an explosion in or on the grounds of a school whereby purposely or knowingly the victim or group of specified victims are in danger of death or bodily injury; or with the purpose of destroying or damaging the victim's or group of specified victim's property that is in the school or on school grounds.

Miscellaneous Provisions of USCO

1. Transfer Time Period – Persistently Dangerous Schools

The transfer will be temporary and will be in effect as long as the pupil's original school is identified as persistently dangerous.

2. Charter School Transfer Option

While NCLB permits affected pupils to be afforded the opportunity to attend a public charter school, in addition to a safe public elementary school or secondary school within the school district, the application of this provision in New Jersey is limited. Transfers to a charter school can only occur as a part of the charter school's "equal opportunity" selection process and among charter schools administered under the same managing authority (i.e., charter schools within the charter school district).

Since charter schools in New Jersey are considered public LEA's, pursuant to N.J.S.A. 18A:36A-3, operated independently of a local board of education, transfers may only take place among charter schools within the LEA. Therefore, pupils may be permitted to transfer to another charter school that is administered under the same managing authority of the charter school, but are not permitted to transfer to a school in the local public school district administered by a local board of education.

However, pursuant to N.J.S.A. 18A:36A-7, a charter school must be open to all pupils on a space available basis and may not discriminate in its admission policies or practices (although it may establish reasonable criteria to evaluate prospective pupils), and in accordance with N.J.S.A. 18A:36A-8, if there are more applications to enroll in the charter school than there are spaces available, the charter school must select pupils to attend using a random selection process for enrollment.

3. Funding Sources for USCO

The Unsafe School Choice Option law does not authorize resources specifically to help cover USCO costs. However, under certain circumstances Federal funds may be used. For example, funds under SDFSCA (Title IV, Part A of the NCLB) may be used to establish safe zones of passage to and from school to ensure that pupils travel safely on their way to school and on their way home [Section 4115(b)(2)(E)(v)]. In addition, SDFSCA funds may be used to help cover costs such as tuition or transportation related to the Unsafe School Choice Option or expansion of public school choice [Section 5121(8) and 5131(12 and (25))].

4. Special Education Pupils

The district will provide transferred special education pupils with the program required by the pupil's Individualized Education Program (IEP).

5. Transfer Schools

In the event there is not another school within the school district for a transferring pupil, the district is not required to transfer the pupil to a school outside the school district.

Under the federal regulations (68 FR 16789), this Policy only applies to offenses that occur in the 2003–2004 school year and thereafter. Beginning with the 2004–2005 school year, the district must provide the transfer option to victims of violent criminal offenses that occurred in the previous school year, if the determination that the pupil was a victim was made thirty days or fewer before the end of the school year.

The district will use the school choice option as one response to incidents of victimization. Additionally, the district will develop and implement appropriate strategies for addressing the circumstances that contribute to or support victimization, as well as consistently and proactively manage individuals who have victimized pupils. The district will promote the importance of school safety and respond to the needs of pupils and staff. Pursuant to the law, the district will provide an opportunity for pupils, parents and school district and law enforcement personnel to discuss methods for keeping schools safe from violence; to create school safety plans; and to recognize pupils in need of help. The district will organize activities to prevent school violence, including, but not limited to, age-appropriate opportunities for pupil discussion on conflict resolution, issues of pupil diversity and tolerance. Law enforcement personnel will be invited to join members of the teaching staff in the discussions. Programs shall also be provided for school district employees that are designated to help school district employees recognize warning signs of school violence and to instruct school district employees on recommended conduct during an incident of school violence.

N.J.S.A. 18A:17-46 requires a public hearing in the third week in October of each year for the Superintendent to report to the Board all acts of violence and vandalism that occurred in the district during the previous school year. The public hearing shall be transcribed and kept on file in the Board of Education Office. The transcript shall be made available to the public upon request. The Board must also file the transcript with the NJDOE for review.

2422 HEALTH AND PHYSICAL EDUCATION

The Board of Education requires all students to participate in a comprehensive, sequential, health and physical education program aligned with the New Jersey Department of Education Core Curriculum Content Standards (CCCS) that emphasizes the natural interdisciplinary connection between wellness and health and physical education. The primary focus of the CCCS is the development of knowledge and skills that influence healthy behaviors within the context of self, family, school, and the local and global community. The mission of the CCCS for comprehensive health and physical education is knowledge of health and physical education concepts and skills to empower students to assume lifelong responsibility to develop physical, social, and emotional wellness.

The CCCS incorporate New Jersey statutes related to health and well-being of students in New Jersey schools. The following statutes incorporated into the CCCS include, but are not limited to, the following requirements:

1. Accident and Fire Prevention (N.J.S.A. 18A:6-2) requires instruction in accident and fire prevention. Regular courses of instruction in accident prevention and fire prevention shall be given in every public and private school in New Jersey. Instruction shall be adapted to the understanding of students at different grade levels.
2. Breast Self-Examination (N.J.S.A. 18A:35-5.4) requires instruction on breast self-examination. The Board of Education shall operate an educational program for students in grades seven through twelve with instruction in breast self-examination. The instruction shall take place as part of the district's implementation of the CCCS in Comprehensive Health and Physical Education and the comprehensive health and physical education curriculum framework shall provide school districts with sample activities that may be used to support implementation of the instructional requirement.
3. Bullying Prevention Programs (N.J.S.A. 18A:37-17) requires the establishment of bullying prevention programs. The school district is encouraged to establish bullying prevention programs and other initiatives involving school staff, students, administrators, volunteers, parents, law enforcement, and community members. To the extent funds are appropriated for these purposes, the school district shall: (1) provide training on the school district's Harassment, Intimidation, or Bullying

Policy to school employees and volunteers who have significant contact with students; and (2) develop a process for discussing the district's Harassment, Intimidation, or Bullying Policy with students. Information regarding the school district Policy against harassment, intimidation, or bullying shall be incorporated into the school's employee training program.

4. Cancer Awareness (N.J.S.A. 18A:40-33) requires the development of a school program on cancer awareness. The Commissioner of Education, in consultation with the State school Boards, shall develop a cancer awareness program appropriate for school-aged children.
5. Dating Violence Education (N.J.S.A. 18A:35-4.23a) requires instruction regarding dating violence in grades seven through twelve. The school district shall incorporate dating violence education that is age appropriate into the health education curriculum as part of the district's implementation of the CCCS in Comprehensive Health and Physical Education for students in grades seven through twelve. The dating violence education shall include, but not be limited to, information on the definition of dating violence, recognizing dating violence warning signs, and the characteristics of healthy relationships.
6. Domestic Violence Education (N.J.S.A. 18A:35-4.23) allows instruction on problems related to domestic violence and child abuse. The Board of Education may include instruction on the problems of domestic violence and child abuse in an appropriate place in the curriculum of elementary school, middle school, and high school students. The instruction shall enable students to understand the psychology and dynamics of family violence, dating violence, and child abuse; the relationship of alcohol and drug use to such violence and abuse; the relationship of animal cruelty to such violence and abuse; and to learn methods of nonviolent problem-solving.
7. Gang Violence Prevention (N.J.S.A. 18A:35-4.26) requires instruction in gang violence prevention for elementary school students. A Board of Education that operates an educational program for elementary school students shall offer instruction in gang violence prevention and in ways to avoid membership in gangs. The instruction shall take place as part of the district's implementation of the CCCS in Comprehensive Health and Physical Education and the comprehensive health and physical education curriculum framework shall provide the school district with sample

materials that may be used to support implementation of the instructional requirement.

8. Health, Safety, and Physical Education (N.J.S.A. 18A:35) requires that all students in grades one through twelve participate in at least two and one-half hours of health, safety, and physical education each school week. Every student, except Kindergarten students, attending the public schools, insofar as he or she is physically fit and capable of doing so, as determined by the medical inspector, shall take such courses, which shall be a part of the curriculum prescribed for the several grades. The conduct and attainment of the students shall be marked as in other courses or subjects, and the standing of the student in connection therewith shall form a part of the requirements for promotion or graduation. The time devoted to such courses shall aggregate at least two and one-half hours each school week, or proportionately less when holidays fall within the week.
9. Drugs, Alcohol, Tobacco, Controlled Dangerous Substances, and Anabolic Steroids (N.J.S.A. 18A:40A-1) requires instructional programs on drugs, alcohol, anabolic steroids, tobacco, and controlled dangerous substances and the development of curriculum guidelines. Instructional programs on the nature of drugs, alcohol, anabolic steroids, tobacco, and controlled dangerous substances, as defined in Section 2 of P.L.1970, c.226 (C.24:21-2), and their physiological, psychological, sociological, and legal effects on the individual, the family, and society shall be taught in the public school and in each grade from Kindergarten through grade twelve in a manner adapted to the age and understanding of the students. The programs shall be based upon the curriculum guidelines established by the Commissioner of Education and shall be included in the curriculum for each grade in such a manner as to provide a thorough and comprehensive treatment of the subject.
10. Lyme Disease Prevention (N.J.S.A. 18A:35-5.1) requires the development of Lyme disease curriculum guidelines. The guidelines shall emphasize disease prevention and sensitivity for victims of the disease.
